From

The Under Secretary to the
Government of India

To

The Chief Commissioner of Mysore

Dated Simla 30th April 1879

Foreign Dept
Political

Sir,

I am directed to acknowledge your Offg Secretary's letter No. 1116 3 / E 165 dated 12th March 1879, submitting for the orders of Government certain amended proposals in connection with the reductions in the Educational Establishments of Mysore

2 In reply I am to say that His Excellency the Governor General in Council approves generally, and sanctions, the arrangements and suggestions communicated in your letter

3 In place, however, of the proposal contained in paragraph 5 of your letter to establish, at some future date, one General Normal School which could be stationed in different parts of the Country, according to need, I am to intimate the opinion of His Excellency that at any rate one good Normal School, with a practising School attached, should be established at once at some central spot in the Province - Probably Mysore itself will be found most suitable for the purpose In this way the School

will be in full working order, and will produce a supply of Village Schoolmasters, before the Country is finally restored to Native rule - His Excellency considers that experience has shown that good Normal Schools, of which the results are often not apparent on the surface, are the best Agencies in keeping a fair Standard of efficiency among Primary Schools, and that, without them, the teaching and working of Primary Schools cannot steadily improve, and may very probably retrograde.

4 The allowances suggested in your letter for the Masters and Students of the proposed Normal School to be formed hereafter, seem to be reasonable, and these, with the other arrangements you submit, may be applied at once to the School now to be established

I have &c

× × ×

5. With regard to Normal Schools, the Chief Commissioner cannot but admit the great desirability of retaining a provision for the special training of Schoolmasters for their work. And although under the absolute necessity which existed for retrenchment of expenditure in every direction, the Normal Schools - whose utility and importance have, I am directed to represent, been all along fully recognized and acted on in Mysore - were, with the exception of one, closed at the end of last official year, their permanent abolition was far from desired. But in place of several such institutions, the Director of Public Instruction is of

opinion, in which the Chief Commissioner concurs, that one General Normal School, which could be stationed in different parts of the country according to need, would answer all the requirements of the Department. Such an institution, it is considered, may be constituted on a suitable basis with an allowance of Rs 100 a month for masters, and Rs 100 for stipends to students. In this would merge the Hindustani Normal School still in operation, and the charges would be equally divided between Provincial and Local Funds. But the Chief Commissioner is of opinion that the formation of the Normal School described may, if approved, be deferred for the present.

Office of the Director of Public Instn
Bangalore, 28th October 1879

From

The Offg Director of Pub Instruction
Mysore and Coorg

To

The Secretary to the
Chief Commissioner Rev Deptt

Sir,

I have the honor to submit for sanction of the Chief Commissioner the Budget Estimates of the Noble School Fund for 1879-80

The allotment to the Fund for 1879-80 is 1,10,000 Rupees After deducting therefrom 8 per cent on account of the Pension Fund there will remain 1,01,200 which added to Rupees 37,562 the cash balance on 1st April 1879 gives Rupees 1,38,762 as the total amount of assets available for expenditure in 1879-80

The proposed expenditure amounts to 1,01,600 and provides an additional annual charge of Rs 3600 to the sanctioned Budget of 1878-79

The following is the explanation of the variations in the

detailed items

A These items provide for the promotion of 50 Noble masters to the 1st grade who have completed 10 full years service (5 years in each of the 3rd and 2nd grade) in Noble Schools

B These items provide for the promotion of 30 Noble masters to the 2nd grade who have completed 5 years service in the 3rd grade

C The present actual expenditure under this head is only Rs 840 and from the savings of rupees 600 effected from the abolition of the appointments of one sub-auditor and two clerks on Rs 15 each the former attached to the Deputy Accountant Generals' office, and the latter to the First and Second Circle Inspectors office the following proposed expenditure is submitted for favourable orders of the Chief Commissioner

To entertain a clerk of some special qualification on the salary of Rs 25/- letter

25th June 1879. para 5, the establish-
ment that is allowed is found
quite inadequate to get through
the work of this office, and the
clerks are overburdened with work
Since the appointment of 5 Deputy
Inspectors the work in this office
has increased to a great extent
2 To add Rs 25/- as personal
allowance to the present pay of
Rs 70 to the manager who has had
the additional work of an account-
attached to him for upwards of a
year without adequate remunera-
tion
The pay of all Head clerks and
managers in other offices of the
Commission ranges from Rs 120
to Rs 450 and I may venture to state
that the work and responsibility
of the manager of this office are
not less onerous than in other
offices where the pay is higher
My predecessors Messrs Garrett
and Rice have expressed a very

high opinion of Mr Shunnappah-
and the latter had no opportunity
so favourable as the present for-
recommending an increase to his
salary
Since I have taken charge of the
office I have found him very
hard working as I had occasion
to testify in my letter No 19 19 para 2,
dated the 11 August 1879, and he is
besides a useful referree
I have known him myself personally
for many years and would re-
commend his case in consideration
of his long and good service for
upwards of 16 years for favourable
consideration of the Chief Commissioner

D These items provide for the establish
ment of a Normal School for the training
of Vernacular school masters with a Practising
School attached as sanctioned by the
Government of India in letter No 1136 dated
Fort William the 30th April 1879

I beg that orders may be given
for the disbursal of the sanctioned

15/

increases retrospectively from April/79

Read

Letter from the Offg Director of Public Instruction in Mysore, No 2934 dated 28th October 1879, submitting for sanction the Noble School Budget Estimates for the Year 1879 80

Order thereon

No 6675-6 / Edn 46 Dy 13th March 1880

WD 12/3

Owing the Reorganizations & Establishments which are being carried into effect, the Offg Chf Comr considers it undesirable that any increased Charge, either by way of increase of pay to Existing Establishments or by the entertainment of new hands should be carried into effect. The Budget is therefore passed for Existing Establishments only

as noted in the margin

2 With regard to the provision made for a Normal School, the duties to be assigned to the Normal Masters and the Practising Masters are not explained - Two such Schools will be desirable, one at Dharwar and the other at Shemoga, and they may be conveniently established in connection with the existing Govt Vernacular Schools at those stations, with a single training

Instruction

Hobli School Masters

Office of the Director of Public Instruction

Bangalore, 3rd June 1880

From

The Director of Public Instruction

To

The Secretary to the

Chief Commissioner, Revenue Deptt

Sir,

I have the honour to submit for the sanction of the Chief Commissioner the Local Fund Educational Budget for 1880-1

2 The following figures, based upon returns received from the Deputy Accountant General, show the amount at credit of the Fund for the year 1880-1

Gross balance at credit on 1st April 1880 Rs 110495

Deduct Reserve Fund for pensions

Nett balance on 1st April 1880

Estimated receipts for 1880-1

Deduct E F T

Amount

during 1879 80 was Rs 133790 7 0, from which Rs 10703 less goes to the Revenue Res- " Fund The actual expenditure incurred and debited to the Fund in 1879-80 came to Rs 88044 14 9

4 Under the sanction conveyed in C C O No $\frac{2994-8}{\text{ed } 27}$ of the 27th December last, the amount of Rs 47700 (see this office No 3957 of 17 January) is chargeable on the Fund on account of Taluq Vernacular Schools And by C C O No $\frac{6675-6}{6645}$ of the 13th March last, the sum of Rs 97400/- was sanctioned on account of Hobli Schools The expenditure already sanctioned therefore is Rs 145100, leaving a balance of Rs 48943 for appropriation in 1880-1

5 The first charge to be provided for is on account of a Normal School, orders for the establishment of which were given in the despatch from the Government of India, No 1136 I P, Foreign Department- Political-, dated 30th April 1879 My proposals regarding the Normal School, which were sanctioned by the Government of India, were that an allowance of Rs 100/- a month should be granted for Masters and Rs 100/- for

stipends to students To these items must be added something for servants and contingent expenses The cost I proposed to divide equally between Provincial and Local Funds

6 In the correspondence which took place with this office on the subject during my absence on furlough, ending with C C O of the 13th March last, I find that Mr Hodson was mistaken as to the nature of the institution I had in view to establish My intention was to have one General Normal School for the whole Province, which should not only unite in itself the work of the various normal schools and classes previously existing, that were closed during the famine, but should impart a higher training than they provided And in view to the advantages which have arisen from localising the former normal schools in different parts of the country, I proposed that this Normal School should be transferred as required from one district to another It will thus be seen that my plan embraced the training for teachers for all schools, whether English or Vernacular, both

Tulug and Holuh, both Canarese and Hindustanees
This was not understood by Mr Hodson, and his proposals
on the subject therefore need not I think be further
considered

7 With regard to the question in your docket Genl No
Secl Dr No 1703 / Revenue Dept 21 of the 16 May 1849, whether Ingore or Bangalore
will be the best situation for the Normal School,
I should recommend a commencement at the former
place The establishment I would propose is as
follows -

1 Head Master on Rs 60 a month		720
1 Canarese Assistant	25/	300
1 Hindustanee	15	180
Stipends of Rs 3 to Rs 5	100	1200
1 Peon	6	72
Contingent expences	4	48
		2520

Provision of Rs 1200 has been made from Provincial
Funds for the School in the Educational Budget of
the current year A like sum of Rs 1200 may now
be entered against Local Funds as sufficient for
the present year two months of which have

elapsed, the exact half can be provided in either budget for next year

8 It may be well to add that my intention as regards the Normal School was to require all the lower grades of masters, and the numerous pupil teachers now in employ, to obtain certificates of competency from the Normal School before promotion to a higher grade This could be done either by admitting them for a course of training, granting them examination leave for the purpose on substitute, or by holding a periodical examination at which they would be required to present themselves

9 The next change I have to propose for the Budget now submitted is provision for the promotion of Irish Schoolmasters who have completed the required period of service in a lower grade and are entitled by satisfactory discharge of their duties Such promotions have been granted every year except last, and have done much towards forming a settled

and steadily working staff of elementary teachers

According to the estimates, provision should be made for promoting

80 from the 2nd grade on Rs 10
to the 1st grade on 12 @ Rs 2 a month 1920

30 from the 3rd grade on 7
to the 2nd grade on 10 3 720

10 The number of Kolhi schools now sanctioned is 650, and allowing for 7 or 8 temporarily closed, this limit has been worked up to But the limit is one imposed on account of the famine, and was reduced from 750 (See Educational Proceedings of 24th Dec 1878) Frequent applications are being received through the District officers for new schools, and I propose therefore to make provision for 50 more, which, at Rs 7, will amount to Rs 4200/, and for 50 Pupil teachers at Rs 5, which will come to Rs 3000

11 The new proposals now made amount altogether to Rs 11040, and will leave a balance to the credit of the Fund of Rs 37903

12 But I would point out that on the transfer of the charges for Taluq Schools to this Fund, we

may legitimately claim that the fees raised therein be credited to the Fund. The amount for 1879-80 was Rs 4186, and this year it may probably be more. To utilize this additional sum I would again bring forward proposals which I have on more than one occasion submitted before, namely to provide for a commencement of English instruction in the most advanced Taluq Vernacular Schools. I do not think it possible to exaggerate the popularity that would attend this measure. In every Taluq almost, applications are made to the officials who visit the schools for English instruction. Some of the assistants of long service now in our schools, who are not quite equal to the requirements of the higher standards at present day, would do admirably for the teachers of English, and would have employment, which is never

educated assistant.

31

request the favour of early orders thereon also as to the crediting of the fees in Taluq Schools, and the proposals for expenditure under that head

I have the honour to be,
Sir,
Your most obedient Servant

P.S

Read V

R. 9

Letter from the Director of Public Instruction in Mysore, No 771 of the 3rd June 1880, submitting the Hobly Schools Budget for 1880-81.

CW 2182-3 Vol 34 dy 13th July/80

Order thereon.

In the above the Director proposes the following provisions in the Local Fund School Budget for 1880-81

Taluk Schools.		Rs 47700
Hobly Schools		
As now existing	Rs 79920	
Proposed increase to Masters' pay	" 2640	
Provision for 50 Additional Schools	" 7200	
		89760
Half the cost of Normal School		120
Inspection - Subdy Inspectors, Office Writers &c		100
General - Furniture, Books, buildings & Contingencies		
Total		

2 The amount can be met on the current year as there is a large surplus of previous years to the credit of the School Fund, which swells the total amount of available for the year to Rs 1,94,073, but it is necessary that the permanent charges under the head should be limited to the annual income from the Cess which, after deducting 8 per Cent for Pensions, is estimated at only Rs 121,440 - The Chief Comm: therefore desires that a rearrangement of the Educational charges under the Local and Provincial Funds should

~~has consented to the~~
be made from next
year, and that until
then, any additional
change, whether by way
of increase of pay to
the Hobby School masters
or by an increase to the
number of Schools, ~~must~~
~~expensively~~ incurred.
Indeed until better
means are provided
for training these masters
and testing their
qualifications, no in-
-crease of pay should
be given for mere
length of service, or
excepting to masters
of superior qualifications
and who have done
good work, nor ~~any~~ this is-
new Schools ~~be~~ opened until

3 With regard

^ original ~~is~~ ~~is~~ ~~is~~

Normal School, the
Chief Commr- is not
quite clear that the
proposed single School
to be transferred from
District to District
would sufficiently meet
the wants of the case -
The distinct and isolated
character of the population
in the Shemoga District
and the Malnad Talukes
of Kadur requires that
a separate Normal School should
be at once established
in that part of the
country for training
masters from the local
inhabitants, and there
should be another
at Mysore, if not at
Bangalore also -
Economy and efficiency
may be obtained
by Closing these
by

Institutions in connec-
-tion with the existing
Govt Schools at the
several stations -
The Chief Comr desires
that detailed proposals
on the subject may be
submitted for sanction
shewing the establish
-ment proposed, the
names and qualifi-
-cations of the persons
to be employed, the
subjects of instruction
and the manner of
training, and from
what classes of
persons and under
what arrangements
candidates are to be
selected and admitted
for training in these
Schools

4. The Chief Comr
concurs in the

of the Director that the
fees collected in the
Taluk Schools should
be credited to the Funds
from which their cost
is provided, and the
necessary instructions
on this subject will
be issued when the
rearrangement of these
charges is hereafter
determined upon -

5 The extension of
English instruction
to Taluk Schools must
be quite exceptional,
and confined to large
and populous stations where
sufficient means can
be provided both from
a higher rate of fees
as well as from
Municipal Funds, &

41

secure well-paid
and efficient masters
It is more important
to provide in these
Schools a higher order
of vernacular instruc
-tion as well as
instruction in useful
branches of English
Science and Art
through the medium
of the Vernacular
language

No 1364 44 Office of the Director of Public Instruction

Bangalore, 15th July 1880

From

The Director of Public Instruction
Myore and Coorg

To

The Secretary to the
Chief Commissioner, Revenue Dept.

Sir

Referring to C C O No $\frac{2182-3}{Edt\ 34}$ of the 13th instant, I have the honour to reply as follows -

2 As regards the promotion of Noble School-masters, every precaution is taken to advance only such masters as have given proof of ability as teachers by maintaining a good standard and a satisfactory attendance in their schools, and have not subjected themselves to proved complaints either departmentally or on the part of the people among whom they have worked. Increase of pay for mere length of service has been systematically refused

3 45 With reference to the establishment of new schools, the step is only taken after the receipt of detailed applications from the people giving a sufficient list of boys, with their ages, who are to attend, the signature of the parent or guardian being required against each name as a proof of his intention to send the child to the school also an undertaking to furnish suitable premises for the school These applications are either supported by the local revenue officers or are further inquired into on the spot by the educational inspecting officers before sanction is accorded The men appointed as masters have been such as had passed through a Normal School and obtained certificates of qualification

4 Regarding the location of the Normal School, I should have proposed Shimoga being in the part of the country where trained masters are most needed and can de-

for training most 4½ difficult to obtain, but that the choice was restricted in your docket Genl. No 1703 Est. of the 16 May 1849 to Bangalore or Mysore Under these circumstances I considered Mysore preferable The Chief Commissioner's present direction, that a Normal School should be at once established in Shimoga, will place that institution where it is most required The details of establishment for such a school were contained in my previous letter (No 771 of 3rd ultimo) If those are approved, or any others that the Chief Commissioner considers more suitable laid down, I hope to be able to select proper persons to be employed The Head master should in my opinion be qualified in both English and Canarese at least, and be a graduate of the University, with experience of teaching The Vernacular Assistants should be school masters of approved ability and attainments The subjects of instruction will be the simple

present ~~or~~ prospective of the schools for which the men under training are intended, in addition to which they will go through a course of School management Their progress will be tested by periodical examinations The candidates for admission I propose to select from the most promising of the pupil teachers now in employ, as these are, nearly all of them, lads of the place, who have been trained in our schools and shewn inclination or ability for teaching, of which also they have now had some experience

5 The provision of English instruction in Taluq schools I proposed to make only where it would be self supporting or nearly so A high order of vernacular instruction it is found by experience presents no attraction to any but a very small minority of the pupils in our Taluq schools The translation of elementary scientific

* into the Vernacular is engaging attention,
but I find it necessary personally to super
vise such translations, or no reliance
can be placed on them and they may
often contain error or be unintelligible

I have the honour to be,
Sir,
Your most obedient Servant

Forwards for sanction the Local Fund Educational Budget Estimates for 1881-2

29-4-81 AKD

395 50 Office of the Director of Public Instruction

Bangalore, 27 April 1881

From

The Director of Public Instruction
Mysore and Coorg

To

The Secretary to the Dewan
of His Highness the Maharaja of Mysore

Sir,

I have the honour to submit for sanction the Local Fund Educational Budget estimates for 1881-2

2. The following is the position of the Fund, according to the Treasury accounts

Nett balance at credit on 1st April 1880		Rs 72,603
Local Cess credited in 1880-1	Rs 138158	
Deduct 8% Reserve for Pensions	11052	1,27,106
Total credit for 1880-1		1,99,709
Actual expenditure for 1880-1		136517
Nett balance at credit on 1st April 1881		Rs 63192

Estimated effective credits to be added for 1881-2

Last year's figures are (1) Local Cess

Taluq Vernacular

Rs 5103 The total estimated credit for 1881 2 is thus Rs 1 95, 401

4 The sanctioned charges for 880-1 amounted to Rs 156, 140 Some items have since been transferred from the Provincial Budget, and the proposed debit for 1881 2 is Rs 1,75,000, as per statement appended The following explanations will account for the items of increase

5 Instruction Under Taluq masters and Assistants provision has been made for raising 15 masters and 12 assistants to a higher grade, and for promoting 26 Pupil Teachers to assistants The annual grant allowed by the Govt of India for promotions according to scale under the Provincial Budget was Rs 2000, which, on account of the necessity for reductions during the Famine, was reduced to Rs 1000, as entered last year The former amount is again recommended for sanction, the encouragement which it is thus possible to give to deserving masters being found to act as a stimulus throughout the Dep.

under Hobli masters credit is taken for the full number of 750 schools which were maintained before the Famine, and provision made for promoting from one grade to another deserving masters who have served the requisite period, on the system successfully applied in former years The demands for Hobli schools it may be added, are increasing from all parts of the country

Under Pupil Teachers provision has been made for 63 more, which is scarcely higher than our actual requirements at the present time, and leaves but a small margin for the year This class of teachers are doing a great deal of very useful work at the cheapest possible rates

Under Servants an allowance has been entered for 6 more peons, for Vernacular schools which under recent orders have been separated from the English schools of which they formed branches

The entry for the Normal School has been made last year The great necessity of establishing itself more and more

the attention of the Educational officers On this subject I would refer to my former applications, ending with No 5110 of the 24th Jan last, regarding which no orders have been received

6. Inspection - The 2 Sub A Inspectors of Hindustani Schools, hitherto provided for in the Provincial Budget, have, with their establishments and allowances, been transferred to Local Funds, and provision made for the revised rates of travelling allowances recently sanctioned

7 General - The chief item of increase is under Buildings and Repairs This provides the means of keeping up the Taluq School buildings, which have hitherto been repaired from the funds entered in the Provincial Budget Under Rent and Contingent charges an increase has been entered to meet actual demands

I have the honour to be,
Sir,
Your most obedient

Local Fund Educational Budget provisions for 1881-2

Charges	Rate	Sanctioned for 1880-1		Proposed for 1881-2
